Eric Trump's Daddy Saved God And Jesus And Your Daddy Didn't

Last week, Donald Trump [told reporters](#) that he doesn't think he's going to heaven. It was one of those moments where he seems briefly more introspective, a rare instance when he's not sundowning about Rosie O'Donnell or dementia-babbling about how Gavin Newsom wouldn't let him turn on the giant faucet in northern California that would have prevented the wildfires. When people saw the video, they were like "Oh look, he's not lying for once," because everybody already knew Trump is going to hell.

Except Eric Trump. He did not know Daddy was going to hell. But then Daddy said that and the whole world was like "Yep, sounds right. *Vete a la mierda, bitch!*" And that hurt Eric's feelings and scared him, and also he has a shitty straight-to-remainders book to sell.

So he ran off to MAGA podcaster and [serial liar](#) Benny Johnson, who's been in the news lately for [cosplaying as an AI Batman](#) beating up immigrants in Chicago, and [also for some other reasons too](#). Did Benny reassure Eric, who seemed to be near tears, he was so passionate about his daddy not going to hell? Did he say, "There, there, Eric, it's OK. You're going to hell too, your whole family is going there together"?

He did not. Which was very rude of him, we think.

Eric knows Daddy isn't going to hell, though, because Daddy saved God and Jesus. From what? Eric does not know, he was just running his mouth to Benny Johnson, trying to negotiate Daddy out of hell.

So that was some fuckin' weird shit.

Eric began by extolling the virtues of Daddy's Middle East peace deal that definitely will last forever (you betcha), and which Daddy accomplished single-handedly without [copying off Joe Biden's paper](#) even a little bit. (Did Netanyahu agree to wait to make a deal until Trump was back in office? Is that what they talked about [that day at Mar-a-Lago?](#) We'll find out eventually.)

Eric attempted to find mystical meaning in the fact that Daddy's Magic Peace Plan happened THE SAME DAY as the birthday of a slain podcaster. We guess that's part of the official numerology now.

Then he exclaimed:

ERIC: Look how much better humanity and the world is! We're saving Christianity. We've saving God. We've saving the family unit. We're saving this nation. I mean, DEI is out of the window, Benny.

Is that how you save God and Jesus, you get rid of DEI? Have MAGA Republicans been worried transgender immigrants were going to take God and Jesus's jobs?

"You no longer have Colin Kaepernick kneeling for the national anthem. You no longer have Budweiser going woke as hell."

Oh, we see. MAGA God and Jesus are sniveling little culture war bitches who are just as tiny as a common Eric Trump. MAGA God and Jesus are insignificant, needy little pubes with severe masculinity issues and Daddy issues like Pete Hegseth or Mike Johnson.

It's fun to create God in your own image! And once you've done that, it's a short jump to Daddy saving God!

"All of this is dead. [...] We have a return to people going to church."

Objection, facts not in evidence, but the authoritarian trash regimes in Hungary and Russia [like to lie about the religiosity and church attendance](#) of their populations too.

Does America Hate Hungary And Russia Because They Love Jesus? Or Is White Grievance Whinyass Tucker Carlson Saying Something Else Entirely?
