Bought to connect a TV and Sky Q box to this as the previous extension lead was very old. Plenty of sockets and does the intended job.

Works well. Good quality. Ample sockets with on/off light so you can tell when it is switched on or off. I. bought it because it has a longer lead than most other extension leads and stretches from the ply across the room to where I need the plugs. Happy with purchase at a good price.

Questions and answers

Question from **Jon**

A

Hi Jon, thank you for your enquiry.

Our technical information lists the SRG65N (our model code for this extension) as having a rating of:-

370 Joules.

Hope this helps and thank you for your purchase.

A

Hi ollie, thank you for your enquiry.

The maximum power capacity for the extension is 13A (3,120W / 3.12kW at a nominal 240V).

As for recommended wattage, about 10% below the maximum should be a comfortable margin, so roughly 2,800W / 2.8kW or less.

Hope this helps and thank you for your purchase.

A

Hi mother, thank you for your enquiry.

As previously advised, the trailing socket end is:-

35.8 cm long.

Hope this helps and thank you for your purchase.

Hi There,

Masterplug 6 Socket 5m Surge Protected Extension Lead

Having checked I can see it is not possible to reduce the cable length.

Thanks for using Q&A.
