Everything you need for your bookmarks

Full-page preservation

Unlike traditional bookmarks that often break or vanish, Linkwarden backs up every page in multiple formats, including full HTML content, ensuring you always have access to the original content.

Automatic Organization

Sharing & Collaboration

Follow RSS Feeds

Follow RSS feeds directly within your collections. New articles and updates appear just like regular saved webpages.

Upload page from Browser

When there's a webpage only you have access to, like one behind a login, you can upload a copy from your browser.

Powerful Search

You can search and filter all your curated contents across all your collections using our advanced search operators.

Browser Extension

Collect webpages directly from your browser with our open-source browser extension.

Sync with your Browser

Sync your browser bookmarks to Linkwarden using Floccus.

Bulk Actions

Edit or delete multiple items at once easily.

Import & Export

You can import and export your bookmarks easily from the settings.

Secure API Integration

Connect and secure your integrations using access tokens to create custom solutions and automate with ease.

And Many More Features...

For more information, check out our release notes in our blog. We're constantly adding new features and improvements!

Open Source Means Transparency

Linkwarden's source code is fully public, giving you visibility into how it works and confidence in how your data is handled.

What Our Users Say

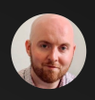

"Linkwarden looks like all I ever wanted from a bookmarks app."

propapanda

★★★★★

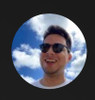

"Slick lil app to manage bookmarks while archiving the page in case it gets removed"

Ian Howells

★★★★★

"Linkwarden is the most genius program of all time!"

luciano

★★★★★

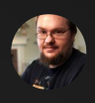

"I got linkwarden installed in my nas, seems pretty nice, already started to save some links"

loop0

★★★★★

"Gotta say Linkwarden is pretty slick. Got it up and going today, and it's great. I don't have to keep shuffling my huge browser bookmarks file between browsers when I switch every other week."

Mark C

★★★★★

"Just gave linkwarden a spin in #Docker on #Synology. A fast, and nice looking platform!"
