Trump Made Up Fake Power Ranger Fairy Princess Rambo Barbie Job Just To Distract Kristi Noem

Donald Trump may be a senile dumbass who knows so little about literally every subject that he's too stupid to even grasp what he doesn't know. But he does have a certain degree of gut smarts, the kind that knows how to be a conman, the kind that knows how to bullshit, and he knows how to use those powers on people who are every bit as daft, conniving, grifty, power-hungry, and vain as he is. Sometimes he uses those powers like one uses a laser pointer to distract a cat.

When Trump fired Nazi Barbie Kristi Noem from the Department of Homeland Security, he made up a job for her. The title, if we remember correctly, was Mighty Morphin Elsa From *Frozen* Cowgirl Power Ranger Mr. Wonderful Wizard Of Oz Galinda Elphaba Davy Crockett Jesse James Calamity Jane Bonnie and Clyde Warrior Princess Medicine Woman the Vampire Slayer.

I look forward to working with Kristi Noem as Special Envoy for The Shield of the Americas — our new security initiative comprised of 13 countries.

Kristi has achieved incredible results as Secretary of Homeland Security and will be a tremendous asset in our effort to promote security and prosperity in the Western Hemisphere.

Many people, especially those with Trump Derangement Syndrome, said “No, that’s not a job.”

But oh yes it was, because Donald Trump, he who createth and destroyeth, who giveth and who taketh away, made it up for a *very specific reason*, namely to keep the baby distracted so she didn’t get excited about something like running for the Senate.

This report comes from [PunchUp](#), a Daily Beast newsletter from veteran reporter Tom Latchem (paywall, that we paid, so that we might tell you things):

President Donald Trump invented a senior government role for Kristi Noem to stop her from running for a seat in the Senate this year, administration sources tell PunchUp,

The title of “Special Envoy for the Shield of the Americas”—announced on March 5 by Trump, 79, as he publicly fired Noem from her role as DHS secretary—was effectively fabricated to ensure she missed the filing deadline for the South Dakota Senate race and would thus be unable to challenge incumbent Sen. Mike Rounds, according to multiple sources.

“It was made up to keep her busy,” one source close to the administration told PunchUp of Noem’s new role. The source said the White House’s private view was that Noem had become so toxic it needed to “put her out to the glue factory”—and so invented an opening that kept her on the government payroll and off the ballot, but with no real power.

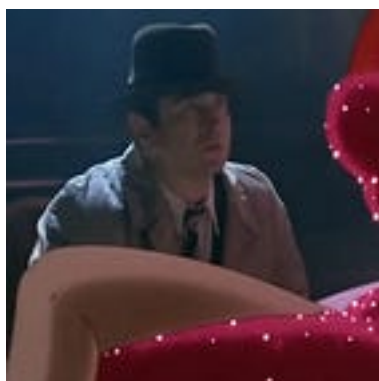

Oh no! One could say Trump was trying to take Kristi Noem to a gravel pit and shoot her like a

common innocent puppy named Cricket!

What's amazing is that this clearly *did* distract her, if this reporting is correct. She's so irredeemably vapid, craven, and narcissistic that it sounds like she was like "YES I WILL BE PRINCESS OF THE SHIELD!" and literally nobody in her life was willing to tell her that wasn't a thing. Not her reported fuckhumping buddy Corey Lewandowski, and definitely not her husband, because he was at the balloon animal store [trying on boobies](#) that day, we bet.
