President Pedo Pal Says Tulsi Gabbard Way Hotter Than Mike Johnson, She Caught Obama Being 'Sedatious'

Share this post

[President Pedo Pal Says Tulsi Gabbard Way Hotter Than Mike Johnson, She Caught Obama Being 'Sedatious'](#)

On the one hand, Donald Trump thinks he is being strategic here, trying to find everything he can find to hurl at the wall [like his anger ketchup](#), to see what successfully sticks. And by “sticks,” we mean to say, “distracts the American people from discussions on whether and how much the files say Trump helped his best friend Jeffrey Epstein attain the title of World’s Most Famous Pedophile.”

Those questions? Not going away. Never going away. Not even after Trump’s pig thug fixer Deputy Attorney General Todd Blanche [goes to visit Ghislaine Maxwell](#) in jail and says, “Hey, will you make up some lies about how Trump isn’t in the files in exchange for a pardon?” and she says “Yes, I prefer to be in un-jail,” and Pam Bondi comes out with a breathless announcement that she invented

Post-Its the pedo-enabler child sex trafficker Trump just pardoned says Trump ain't never done anything wrong.

Maybe the totally unprompted and highly respected Ghislaine Maxwell announcement will even say Epstein Island was basically a Democrats-only affair, and that they always suspected Hero Trump was there as a spy, for Jesus!

Of course, there's another way the DOJ's meeting with Maxwell could go next week:

Yes, it *could* go that way.

What's important is that the American people are making fun of the Blanche/Bondi meeting with Ghislaine Maxwell *before it's even happened*. Keep it up, Americans, we all have a part to play in [keeping Donald Trump's cankles inflamed!](#)

Regardless of all this being an obvious distraction strategy from Trump, the fact remains that [his brain is pudding](#) that's been left outside during a heatwave and devoured/fucked/pissed in by syphilitic raccoons.

[Wonkette already chronicled](#) many of the brain raccoon syphilis moments Trump had yesterday trying to explain his new/old conspiracy theory that Tulsi Gabbard discovered Barack Obama putting Wire Tapps in his bottom and doing coups to steal the 2016 election from Hillary Clinton to give it to himself so he could give it to Trump at the last minute *but in a sinister and very stinky way*.

You see, Obama's "orders are on the papers" and Obama signed the papers and they sent the papers to be "highly classified" but now they're released and "it's criminal at the highest level" and Obama "started it and Biden was there with him and Comey was there" and this is the room where it happened, the room that is now elegant and gold and [MAAAAHBLE COLUMNS](#), unlike how it looked when Obama was giving the orders on the papers [*insert 12 minutes of dialogue about how Trump covered the Oval Office with gold spray paint*].

And there was so much more than that!

You'd think after all that, Trump's handlers would have tranquilized his voluminous ass, placed him atop his golden toilet for his nightly dumps and then put him to bed, but no, he wasn't done.

Because last night, as he honored Republican lawmakers at the White House with a reception — yes

the same Republican lawmakers who are quitting all work right now so they can't be forced to vote on releasing the Epstein files — he had vast praise for Tulsi Gabbard, his clownfucking director of national intelligence [who fabricated this Obama “intelligence”](#) for him. And because he's Donald Trump, [Jeffrey Epstein's Pube Artist](#), it was gross and perverted.

“Where's Tulsi? She's like, hotter than everybody. She's the hottest one in the room right now. Because she found out, we certainly, I think we knew it before in all fairness, Tulsi, but now you have certainty, she has all the documents, she has everything that you need, and she found out that Barack Hussein Obama led a group of people and they cheated in the elections and they cheated without question. It's not even a question, would you say there is even a little question there, Tulsi? She says no. And uh you found things that nobody thought we'd ever find and very happy and very honored to have you with us. She's right now, by far, Speaker, she's hotter than you right now, Speaker! She's the hottest person in the room right now, Speaker!”

Tulsi, she's so hot right now. Tulsi.

[She's hot like America](#). Before Donald Trump was president, Tulsi was totally dead. But now Tulsi is the “hottest” and most respected DNI anywhere in the world!
